13 - September	Ian Milner & Joanna Cresswell / Gemma Dobson
27 - September	David and karen Long
11 - October	Ian Powell
25 - October And after	John Vickers/ Andrew Carter
Please note the following	
1)	The Grass paths between plots will be cut by the work parties where required.
2)	Depending on how quick the grass is growing it may be beneficial to do one cut at the start of the two week period and one at the start of your second week
3)	Please also cut the grass around the main gate, i.e. where the notice board is located and the inner gate and also please strim along the edges of the main grass pathways.
4)	The mower is not a mulching mower and therefore the clippings should be collected. But what to do with them? Some of the clippings will contain Mares Tail and as such should be disposed of carefully. The first bin behind the Farm entrance gate is the only one designated for any clippings. Please do not leave them in a heap elsewhere which invariably then turns into a slimy mess. The two white Dumpy Bags in the communal shed are useful to collect the clippings from the mower then drag them to the bin near the farm gate
5)	Please do not forget to clean the mower and re-fill with ordinary E10 Petrol
6)	Finally if holidays intervene please make arrangements to swap with another member
